

**Management's Discussion and Analysis**  
**For the three and six-months ended May 31, 2020**  
**Key highlights**

---

- Non-cash impairment charge of \$120.3 million related to property, plant and equipment, intangible assets and goodwill
- Net loss attributable to shareholders of \$99.1 million or (\$4.01) per share
- System sales of \$670.7 million, down 19% compared to Q2-19
- 2,757 restaurants closed during the quarter, resulting in 138,931 business days lost during the quarter; 1,470 were still closed at quarter end, and 573 remain closed as of the date of this press release, which represents less than 8% of the network.
- Amended existing credit facility with more flexible financial covenants for the next four quarters
- Management initiatives resulting in a reduction of recurring controllable expenses of \$10.1 million for Q2
- EBITDA of \$18.2 million, down 47% compared to Q2-19
- Free cash flows of \$28.9 million despite dramatic impact of COVID-19
- Repurchased and cancelled 364,774 shares for a total consideration of \$18.9 million year-to-date
- Cash on hand of \$49.9 million as at May 31, 2020

<sup>(1)</sup> See section "Definition of non-GAAP measures" found in the Supplemental Information section for definition.

## **Management's Discussion and Analysis**

### **For the three and six-months ended May 31, 2020**

#### **General**

This Management's Discussion and Analysis of the financial position and financial performance ("MD&A") of MTY Food Group Inc. ("MTY") is supplementary information and should be read in conjunction with the Company's condensed interim consolidated financial statements for the period ended May 31, 2020 and the audited consolidated financial statements and accompanying notes for the fiscal year ended November 30, 2019.

In the MD&A, MTY Food Group Inc., MTY, or the Company, designates, as the case may be, MTY Food Group Inc. and its Subsidiaries, or MTY Food Group Inc., or one of its subsidiaries.

The disclosures and values in this MD&A were prepared in accordance with International Financial Reporting Standards (IFRS) and with current issued and adopted interpretations applied to fiscal years beginning on or after December 1, 2019.

This MD&A was prepared as of July 9, 2020. Supplementary information about MTY, including its latest annual and quarterly reports, and press releases, is available on SEDAR's website at [www.sedar.com](http://www.sedar.com).

#### **FORWARD LOOKING STATEMENTS AND USE OF ESTIMATES**

This MD&A and, in particular but without limitation, the sections of this MD&A entitled Outlook, Same-Store Sales, Contingent Liabilities and Subsequent Event, contain forward-looking statements. These forward-looking statements include, but are not limited to, statements relating to certain aspects of the business outlook of the Company during the course of 2020. Forward-looking statements also include any other statements that do not refer to independently verifiable historical facts. A statement made is forward-looking when it uses what is known and expected today to make a statement about the future. Forward-looking statements may include words such as aim, anticipate, assumption, believe, could, expect, goal, guidance, intend, may, objective, outlook, plan, project, seek, should, strategy, strive, target and will. All such forward-looking statements are made pursuant to the 'safe harbour' provisions of applicable Canadian securities laws.

Unless otherwise indicated, forward-looking statements in this MD&A describe the Company's expectations as at July 9, 2020 and, accordingly, are subject to change after such date. Except as may be required by Canadian securities laws, the Company does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Forward-looking statements, by their very nature, are subject to inherent risks and uncertainties and are based on several assumptions which give rise to the possibility that actual results or events could differ materially from the expectations expressed in or implied by such forward-looking statements and that the business outlook, objectives, plans and strategic priorities may not be achieved. As a result, the Company cannot guarantee that any forward-looking statement will materialize, and readers are cautioned not to place undue reliance on these forward-looking statements. Forward-looking statements are provided in this MD&A for the purpose of giving information about management's current strategic priorities, expectations and plans and allowing investors and others to get a better understanding of the business outlook and operating environment. Readers are cautioned, however, that such information may not be appropriate for other purposes. In addition, the impact of Covid-19 on operational cash flow and financial condition of the industry in which the Company operates and on the Company itself continues to evolve and any forward looking information set forth herein with respect to such matters is subject to change and actual impact may differ from expectations in a material way.

Forward-looking statements made in this MD&A are based on a number of assumptions that are believed to be reasonable on July 9, 2020. Refer, in particular, to the section of this MD&A entitled Risks and Uncertainties for a description of certain key economic, market and operational assumptions the Company has used in making forward-looking statements contained in this MD&A. If the assumptions turn out to be inaccurate, the actual results could be materially different from what is expected.

In preparing the consolidated financial statements in accordance with IFRS and the MD&A, management must exercise judgment when applying accounting policies and use assumptions and estimates that have an impact on the amounts of assets, liabilities, sales and expenses reported and information on contingent liabilities and contingent assets provided.

Unless otherwise indicated in this MD&A, the strategic priorities, business outlooks and assumptions described in the previous MD&A remain substantially unchanged.

Important risk factors that could cause actual results or events to differ materially from those expressed in or implied by the above-mentioned forward-looking statements and other forward-looking statements included in this MD&A include, but are not limited to: the intensity of competitive activity, and the resulting impact on the ability to attract customers' disposable income; the Company's ability to secure advantageous locations and renew existing leases at sustainable rates; the arrival of foreign concepts, the ability to attract new franchisees; changes in customer tastes, demographic trends and in the attractiveness of concepts, traffic patterns, occupancy cost and occupancy level of malls and office towers; general economic and financial market conditions, the level of consumer confidence and spending, and the demand for, and prices of, the products; the duration and impact of the COVID-19 pandemic, its impact on the ability to re-open locations as well as on consumer demand upon re-opening and its macro-economic impact; the ability to implement strategies and plans in order to produce the expected benefits; events affecting the ability of third-party suppliers to provide essential products and services; labour availability and cost; stock market volatility; volatility in foreign exchange rates or borrowing rates; foodborne illness; operational constraints, government orders and the event of the occurrence of epidemics, pandemics and other health risks.

These and other risk factors that could cause actual results or events to differ materially from the expectations expressed in or implied by these forward-looking statements are discussed in this MD&A.

Readers are cautioned that the risks described above are not the only ones that could impact the Company. Additional risks and uncertainties not currently known or that are currently deemed to be immaterial may also have a material adverse effect on the business, financial condition or results of operations.

Except as otherwise indicated by the Company, forward-looking statements do not reflect the potential impact of any non-recurring or other special items or of any dispositions, monetizations, mergers, acquisitions, other business combinations or other transactions that may be announced or that may occur after July 9, 2020. The financial impact of these transactions and non-recurring and other special items can be complex and depend on the facts particular to each of them. The Company therefore cannot describe the expected impact in a meaningful way or in the same way that present known risks affecting the business.

## CORE BUSINESS

Founded in 1979 MTY franchises and operates quick service, fast casual and casual dining restaurants. MTY aims to be the franchisor of choice in North America and offers the market a range of offering through its many brands. MTY currently operates under the following banners: Tiki-Ming, Sukiyaki, La Crémère, Au Vieux Duluth Express, Panini Pizza Pasta, Villa Madina, Cultures, Thai Express, Vanellis, Kim Chi, "TCBY", Sushi Shop, Koya Japan, Vie & Nam, Tandori, O'Burger, Tutti Frutti, Taco Time, Country Style, Buns Master, Valentine, Jugo Juice, Mr. Sub, Koryo Korean Barbeque, Mr. Souvlaki, Sushi Go, Mucho Burrito, Extreme Pita, PurBlendz, ThaiZone, Madisons New York Grill & Bar, Café Dépôt, Muffin Plus, Sushi-Man, Fabrika, Van Houtte, Manchu Wok, Wasabi Grill & Noodle, Tosto, Big Smoke Burger, Cold Stone Creamery, Blimpie, Surf City Squeeze, The Great Steak & Potato Company, NrGize Lifestyle Café, Samurai Sam's Teriyaki Grill, Frullati Café & Bakery, Rollerz, Johnnie's New York Pizzeria, Ranch One, America's Taco Shop, Cereality, Tasti D-Lite, Planet Smoothie, Maui Wowi, Pinkberry, Baja Fresh Mexican Grill, La Salsa Fresh Mexican Grill, La Diperie, Steak Frites St-Paul, Giorgio Ristorante, The Works Gourmet Burger Bistro, Houston Avenue Bar & Grill and Industria Pizzeria + Bar, Dagwoods Sandwiches and Salads, The Counter Custom Burgers, Built Custom Burgers, Baton Rouge, Pizza Delight, Scores, Toujours Mikes, Ben & Florentine, Grabbagreen, Timothy's World Coffee, Mmmuffins, SweetFrog, Casa Grecque, South Street Burger, Papa Murphy's, Yuzu Sushi, Allô! Mon Coco, La Boite Verte, Eat Pure, Turtle Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina.

As at May 31, 2020, MTY had 7,236 locations in operation, of which 7,077 were franchised or under operator agreements, 22 are operated through the joint venture and the remaining 137 locations were operated by MTY.

MTY's locations can be found in: i) mall and office tower food courts and shopping malls; ii) street front; and, iii) non-traditional format within airports, petroleum retailers, convenience stores, cinemas, amusement parks, in other venues or retailers shared sites, hospitals, universities, grocery stores, and food-truck carts.

MTY has developed several quick service restaurant concepts: Tiki-Ming (Chinese cuisine) was its first banner, followed by Sukiyaki (a Japanese delight), Panini Pizza Pasta, Chick'n'Chick, Caferama, Carrefour Oriental, Villa Madina, Kim Chi, Vie & Nam, Tandori, O'Burger, Tosto, La Boite Verte and Eat Pure.

Details on other banners added through acquisitions can be found in the supplemental section of this MD&A.

MTY also has an exclusive area development agreement with Restaurant Au Vieux Duluth to develop and sub-franchise Au Vieux Duluth Express quick-service restaurants in the Provinces of Ontario and Quebec.

Revenues from franchise locations are generated from royalty fees, franchise fees, sales of turnkey projects, rent, sign rental, supplier contributions, gift card breakage and program fees and sales of other goods and services. Operating expenses related to franchising include salaries, general and administrative costs associated with existing and new franchisees, expenses in the development of new markets, costs of setting up turnkey projects, rent, supplies, finished products and equipment sold.

Revenues from corporate-owned locations include sales generated from corporate-owned locations. Corporate owned location expenses include the costs incurred to operate corporate owned locations.

Promotional funds contributions are based on a percentage of gross sales as reported by the franchisees. The Company is not entitled to retain these promotional fund payments received and is obligated to transfer these funds to be used solely in promotional and marketing-related costs for specific restaurant banners.

MTY generates revenues from the food processing businesses discussed herein. The two plants produce various products that range from ingredients and ready to eat food sold to restaurants or other food processing plants to prepared food sold in retail stores. The plants generate most of their revenues selling their products to distributors, retailers and franchisees. The Company also generates revenues from the sale of retail products under various brand names which are sold at various retailers. The Company also generates revenue from its distribution centers that serve primarily the Valentine and Casa Grecque franchisees.

## **ADOPTION OF NEW ACCOUNTING STANDARD**

In January 2016, the International Accounting Standards Board ("IASB") issued IFRS 16 Leases ("IFRS 16"). The standard provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. It supersedes IAS 17, Leases and its associated interpretive guidance. Significant changes were made to lessee accounting with the distinction between operating and finance leases removed and right-of-use assets and lease liabilities recognized in respect of all leases (subject to limited exceptions for short-term leases and leases of low-value assets). Lease-related expenses previously recorded in operating expenses, primarily as occupancy costs will be recorded as depreciation on the right-of-use assets and a finance charge from unwinding the discount on the lease liabilities. Lease-related revenues previously recorded in rental revenue will be recorded as finance income. IFRS 16 will also change the presentation of cash flows relating to leases in the Company's consolidated statements of cash flows, but it does not cause a difference in the amount of cash transferred between the parties of a lease. Although the standard did not change the accounting for most lessors significantly, it does change the manner in which intermediate lessors determine the classification of sublease arrangements between operating and finance leases. Under IFRS 16, this assessment is determined relative to whether the sublease transfers significant risks and rewards of the right-of-use asset.

IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier application permitted for entities that apply IFRS 15. The guidance allows for either a full retrospective or modified retrospective transition method. The Company has selected to apply the modified retrospective transition method. Further, the Company has selected to apply the practical expedients to (i) grandfather the assessment of which transactions are leases; (ii) the use of the provision for onerous leases as an alternative to performing an impairment review; (iii) recognition exemption of short-term and low value leases; and (iv) the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The financial statements reflect the application of IFRS 16 beginning in fiscal 2020, while the financial statements for prior periods were prepared under the guidance of the previous standard. For further information, please see section "Changes in accounting policies" further in this MD&A.

## **COMPLIANCE WITH INTERNATIONAL FINANCIAL REPORTING STANDARDS**

Unless otherwise indicated, the financial information presented below, including tabular amounts, is prepared in accordance with International Financial Reporting Standards ("IFRS"). MTY uses earnings before interest, taxes, depreciation and amortization ("EBITDA"), because this measure enables management to assess the Company's operational performance. Definitions of all non-GAAP measures can be found in the supplemental information section of

this MD&A. The non-GAAP measures used within the context of this MD&A do not have a standardized meaning prescribed by GAAP and are therefore unlikely to be comparable to similar measures presented by other issuers. Non-GAAP measures provide investors with a supplemental measure of the operating performance and financial position and thus highlight trends in the core business that may not otherwise be apparent when relying solely on GAAP measures.

Same store sales growth is used to provide information on the comparative performance of the restaurants in the network from one period to the next. Similarly, the Company uses system sales to evaluate the size and performance of MTY's network, as well as to indicate its income-generation potential.

## HIGHLIGHTS OF SIGNIFICANT EVENTS

### COVID-19

In December 2019, a novel strain of coronavirus was reported to have surfaced in China, later to be renamed COVID-19. The spread of this virus caused business disruption beginning in March 2020, due to the closure or modified operating hours in certain restaurants, and traffic decline in Canada, the USA and Internationally.

Further while the disruption is currently expected to be temporary, there is uncertainty around the duration of the pandemic, its medium to longer term impact on the economy and the rules that will apply to MTY's restaurants as sheltering measures are gradually removed. The impact of the virus and the efforts to stop it impact MTY and many of its franchisees materially.

During the second quarter, MTY's primary focus was on the health and safety of its customers, employees and franchisees as well as supporting restaurants across its network. The response to COVID-19 and government restrictions imposed have impacted everyone and MTY is not immune to this. As at July 9, many restaurants in MTY's network continue to either be closed or operate on revised operating hours. Locations continue to adapt to delivery or curb side pick-up as new partnerships are formed allowing franchisees to provide their easier safe access to their food offerings. Overall customer traffic also continues to be impacted either due to restrictions or customer fear. The majority of the brands in MTY's portfolio will continue to be impacted negatively for the coming months. As at May 31, 2020, MTY had 1470 locations temporarily closed with many of those open operating at reduced capacity. During the months of March, April and May, MTY's network lost a total of 138,931 days (96,346 in Canada and 42,585 in the US) of combined operations with a total of 2,757 locations temporarily closing during the three-month period. Locations that are still temporarily closed are mostly located in mall locations, office towers and non-traditional locations such as airports, gyms and universities. As certain territories begin to relax restrictions by reopening markets and allowing for restaurants to resume normal operation, there is uncertainty as to whether a second wave of the disease will result in sheltering measures being reinforced and the halt once again of the market. The Company expects that the number of affected locations will continue to fluctuate in response to the rapidly-changing environment, with a corresponding effect on customer traffic volumes and revenue at these locations.

During the second quarter, MTY put into place a series of measures in an attempt to help franchisees and ensure the safety and well being of its employees, guests and partners.

- Postponed the collection of royalties from franchisees for a period of time;
- Put in new safety measures within its network of restaurants such as increased cleaning frequency, the use of face shields or masks and gloves, the installation of plexiglass at service counters and the suspension of certain practices like the use of reusable cups, in order to minimize risk;
- Signed partnership with aggregators to help facilitate the delivery of food offerings;
- Invested and enhanced online ordering technologies to improve the customer experience for many of the brands and help facilitate take-out, curbside pick-up and delivery orders;
- Implemented a work from home policy.

For the second quarter, MTY's condensed interim consolidated financial statement have been impacted with respect to the following as a result of COVID-19:

- Additional expected credit losses on accounts receivable, loans receivable and lease receivable were taken;
- Expected credit losses on lease guarantees were taken as new provisions;
- Impairment testing on property, plant and equipment and right-of-use assets were carried out resulting in impairments;
- Impairment testing on franchise rights, trademarks and goodwill were carried out and material impairments were recorded;
- Provisions for closed stores, and related litigations and disputes were increased to reflect new risks;
- Additional fair value adjustment on the \$100,000 credit facility interest rate swap resulting from the decrease in Canadian borrowing rate;
- Changes to lease liability and lease receivable were made to reflect changes in lease payment terms.

During the second quarter, MTY also amended its existing credit facility in light of COVID-19 to change the financial covenants for a period of one year. The amendment increases the debt-to-EBITDA ratio from May 31, 2020 to May 30, 2021. The credit agreement also contains various limitations on distributions and on the usage of the proceeds from the disposal of assets. This amendment was deemed necessary to ensure compliance given the uncertainty of the EBITDA for the next few quarters. Please refer to section "Liquidity and Capital Resources" for further information on these changes.

The Company also took several measures in an effort to preserve capital resources during this challenging and unpredictable time:

- The quarterly dividend that would normally have been paid in May 2020 was suspended
- The Company temporarily laid off over half of its global workforce in March some of whom have been recalled back to work, as a result of locations reopening;
- The Company's leadership team voluntarily reduced their base salaries on a temporary basis;
- Capital and operational spending was reduced to a minimum.

Further information on these changes can be found in the May 31, 2020 condensed interim consolidated financial statements.

### **Acquisition of Turtle Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina**

On December 3, 2019, one of the Company's wholly owned subsidiaries completed its acquisition of a 70% interest in a joint venture that acquired Turtle Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina (together "Tortoise Group"), three casual dining concepts operating in the province of Ontario, for a consideration of \$27.9 million, which includes a deferred contingent consideration amounting to \$6.0 million, an obligation for the premium to repurchase its partner in a joint venture of \$2.8 million and cash consideration of \$19.1 million. The Company has recorded its interest as a long-term receivable. The Company has guaranteed liabilities of the joint venture amounting to \$7.0 million, which are payable to Tortoise Group, upon the repurchase of the 30% joint venture partner. At closing, there was 20 franchised restaurants in operation and 3 corporate-owned stores.

### **DESCRIPTION OF RECENT ACQUISITIONS**

On December 3, 2019, one of the Company's wholly owned subsidiaries completed its acquisition of a 70% interest in a joint venture that acquired Turtle Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina (together "Tortoise Group"), three casual dining concepts operating in the province of Ontario, for a consideration of \$27.9 million, which includes a deferred contingent consideration amounting to \$6.0 million, an obligation for the premium to repurchase its partner in a joint venture of \$2.8 million and cash consideration of \$19.1 million. The Company has recorded its interest as a long-term receivable. The Company has guaranteed liabilities of the joint venture amounting to \$7.0 million, which are payable to Tortoise Group, upon the repurchase of the 30% joint venture partner. At closing, there was 20 franchised restaurants in operation and 3 corporate-owned stores.

On July 19, 2019, the Company's Canadian operations completed its acquisition of the assets of Allô! Mon Coco for a total consideration of \$30.7 million. A total of approximately \$24.1 million was paid on closing, financed from MTY's cash on hand and existing credit facility, while \$0.2 million in net liability was assumed and \$7.1 million was held back in the form of contingent consideration and holdbacks. At closing, there was 40 franchised restaurants in operation.

On July 15, 2019, the Company's Canadian operations completed its acquisition of the assets of Yuzu Sushi for a total consideration of \$27.6 million. A total of approximately \$25.4 million was paid on closing, financed from MTY's cash on hand and existing credit facility and \$2.2 million was held back in the form of contingent consideration. At closing, there was 129 franchised restaurants in operation.

On May 23, 2019, the Company, through the merger of a wholly-owned US subsidiary with Papa Murphy's Holdings Inc. ("PM"), acquired all the outstanding shares of PM. The total consideration for the transaction was \$255.2 million. At closing, PM operated 1,301 franchised and 103 corporate-owned stores in the U.S., Canada and United Arab Emirates.

On March 21, 2019 the Company acquired the assets of South Street Burger for a total consideration of approximately \$4.9 million. A total of approximately \$4.1 million was paid on closing, financed from MTY's cash on hand and existing credit facilities, while \$0.2 million in net liabilities was assumed and \$0.7 million was held back. At closing, there were 24 franchised restaurants and 13 corporate restaurants in operation.

On December 10, 2018, the Company completed its acquisition of most of the assets of Casa Grecque for a total consideration of \$22.0 million, of which \$20.9 million was financed from MTY's cash on hand and existing credit facilities, while \$0.2 million in net liabilities was assumed and \$1.3 million was held back.

## SEGMENT NOTE DISCLOSURE

Management monitors and evaluates the Company's results based on geographical segments; these two segments being Canada and US & International. The Company and its chief operating decision maker assess the performance of each operating segment based on its segment profit and loss which is equal to revenue less operating expenses. Within those geographical segments, the Company's chief operating decision maker also assesses the performance of subdivisions based on the type of product or service provided. These subdivisions include franchising, corporate store, food processing, retail and distribution and promotional funds revenues and expenses.

## RESULTS OF OPERATIONS FOR THE SIX-MONTH PERIOD ENDED MAY 31, 2020

### Revenue

During the first six months of 2020, the Company's total revenue increased to \$248.6 million, from \$232.9 million a year earlier. Revenues for the two segments of business are broken down as follows:

Segment	Subdivision	May 31, 2020 (\$ millions)	May 31, 2019 (\$ millions)	Variation
Canada	Franchise operation	51.1	67.8	(25%)
	Corporate stores	10.6	18.6	(43%)
	Food processing, distribution and retail <sup>(1)</sup>	50.2	40.8	23%
	Promotional funds	14.7	20.7	(29%)
	Intercompany transactions	(0.9)	(1.1)	N/A
Total Canada		125.7	146.8	(14%)
USA & International	Franchise operation	69.6	57.2	22%
	Corporate stores	25.0	10.5	137%
	Food processing, distribution and retail	1.8	2.1	(15%)
	Promotional funds	27.6	16.5	67%
	Intercompany transactions	(1.1)	(0.2)	N/A
Total USA/International		122.9	86.1	43%
<b>Total operating revenues</b>		<b>248.6</b>	<b>232.9</b>	<b>7%</b>

<sup>(1)</sup> Prior year amounts have been restated to reflect a change in presentation for retail promotional deductions.

### Canada revenue analysis:

Revenues from franchise locations in Canada decreased by 25%. Several factors contributed to the variation, as listed below:

	\$ millions
Revenues, first six months of 2019	67.8
Decrease in recurring revenue streams	(18.6)
Increase in initial franchise fees, renewal fees and transfer fees	0.4
Decrease in turnkey, sales of material to franchisees and rent revenues	(1.9)
Decrease in gift card breakage income	(0.2)
Increase due to impact of IFRS 16 on rent revenue	0.7
Increase due to the acquisitions	4.0
Other non-material variations	(1.1)
Revenues, first six months of 2020	51.1

The decrease to franchising revenues was mostly due to the negative impact of the pandemic. Year-to-date system sales when excluding acquisitions dropped 32% compared to prior year mostly as a result of COVID-19. As at May 31, 2020, the Company still had 966 locations temporarily closed in Canada.

Revenue from corporate-owned locations decreased by 43% to \$10.6 million year-to-date. The decrease is mostly due to the closures of most of the corporate locations during the months of March, April and May as a result of the pandemic.

Food processing, distribution and retail revenues increased by 23% mainly as the results of higher consumer spending in grocery stores while restaurants were closed during the pandemic. The launch of new products in the retail division as well as expansion into new provinces also helped generate new sales channels.

Promotional fund revenue decrease of 29% fluctuated in line with the decrease in system sales of 32%. This was offset by the new promotional revenues generated by the brands acquired in the last year.

### USA/International revenue analysis:

Revenues from franchise locations in the US increased by 22%. Several factors contributed to the variation, as listed below:

	\$ millions
Revenues, first six months of 2019	57.2
Decrease in recurring revenue streams	(14.8)
Decrease in sales of material and services to franchisees	(1.4)
Decrease in gift card breakage income	(0.8)
Increase due to acquisitions	27.2
Impact of variation in foreign exchange rates	1.0
Other non-material differences	1.2
<b>Revenues, first six months of 2020</b>	<b>69.6</b>

For the US, franchising revenues increased due to the acquisition of Papa Murphy's. Excluding the acquisition, franchising revenues would have decreased by \$14.8 million mostly due to the negative impact of the pandemic. Year-to-date system sales when excluding acquisitions dropped 25% compared to prior year mostly as a result of COVID-19. As at May 31, 2020, the Company still had 504 locations temporarily closed in the United States and Internationally.

The increase of \$14.5 million in corporate owned location revenues is mainly due to the impact of corporate stores acquired through the acquisition of Papa Murphy's. This accounts for \$15.6 million. This was partially offset by the reduction in corporate store sales for locations that were closed as a result of the pandemic.

The increase in promotional funds of \$11.1 million is due to the acquisition of Papa Murphy's. Papa Murphy's contributed \$14.5 million in promotional funds. This was offset by the decrease caused by COVID-19.

### **Cost of sales and other operating expenses**

During the first six months of 2020, operating expenses increased by 11% to \$189.7 million, up from \$170.4 million a year ago. Operating expenses for the two business segments were incurred as follows:

Segment	Subdivision	May 31, 2020 (\$ millions)	May 31, 2019 (\$ millions)	Variation
Canada	Franchise operation	29.1	32.8	(11%)
	Corporate stores	10.9	20.0	(46%)
	Food processing, distribution and retail <sup>(1)</sup>	44.6	36.0	24%
	Promotional funds	14.7	20.7	(29%)
	Intercompany transactions	(1.0)	(1.3)	N/A
	<b>Total Canada</b>	<b>98.3</b>	<b>108.2</b>	<b>(9%)</b>
USA & International	Franchise operation	39.8	34.6	15%
	Corporate stores	25.0	11.1	126%
	Promotional funds	27.6	16.5	67%
	Intercompany transactions	(1.0)	—	N/A
<b>Total USA/International</b>		<b>91.4</b>	<b>62.2</b>	<b>47%</b>
<b>Total cost of sales and other operating expenses</b>		<b>189.7</b>	<b>170.4</b>	<b>11%</b>

<sup>(1)</sup> Prior year amounts have been restated to reflect a change in presentation for retail promotional deductions.

#### Canada cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in Canada decreased by \$3.7 million or 11%. Several factors contributed to the variation, as listed below:

	\$ millions
Cost of sales and other operating expenses, first six months of 2019	32.8
Decrease in recurring non-controllable expenses	(0.8)
Decrease in recurring controllable expenses including wages, professional and consulting services and other office expenses	(4.4)
Increase in expected credit loss provision	1.0
Increase due to acquisitions	1.9
Decrease due to impact of IFRS 16 on rent expense	(1.5)
Increase due to impact of IFRS 16 on impairment of lease receivables	0.7
Other non-material differences	(0.6)
Cost of sales and other operating expenses, first six months of 2020	29.1

In response to COVID-19, management was able to take certain actions to reduce expenditures within the organization resulting in the overall reduction of \$4.4 million in controllable expenses. Please refer to section "highlights of significant events" for more details on these measures taken.

Excluding the impact of IFRS 16, operating expenses would have decreased to \$29.9 million or 9%.

Corporate store operating expenses was positively impacted by \$1.6 million due to IFRS 16. Removing the rent expense IFRS 16 adjustment, corporate store expenses would have been \$12.5 million, a decrease of 38% compared to prior year. This decrease is aligned with the decrease in revenues mentioned above and is attributable mainly to the temporary closures of these locations.

The variation of expenses from the food processing, distribution and retail as well as promotional funds expenses activities were tightly correlated to the related revenues.

#### USA/International cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in the USA/International increased by \$5.2 million or 15%. Several factors contributed to the variation, as listed below:

	\$ millions
Cost of sales and other operating expenses, first six months of 2019	34.6
Decrease in recurring non-controllable expenses	(1.3)
Decrease in recurring controllable expenses including wages, professional and consulting services and other office expenses	(3.5)
Increase in expected credit loss provision	0.7
Increase due to acquisitions	10.6
Decrease due to impact of IFRS 16 on rent expense	(3.0)
Impact of variation in foreign exchange rates	0.4
Other non-material differences	1.3
Cost of sales and other operating expenses, first six months of 2020	39.8

Excluding the impact of IFRS 16, operating expenses would have increased by \$8.2 million. The acquisition of Papa Murphy's resulted in an increase of \$10.6 million. This was offset mainly by a decrease controllable expenses of \$3.5 million which was the result of management cost reduction initiatives put into place in response to COVID-19.

Corporate store operating expense was positively impacted by \$1.3 million due to IFRS 16. Removing the rent expense IFRS 16 adjustment, corporate store expenses would have been \$26.3 million, an increase of 138% compared to prior year. This increase is aligned with the increase in revenues mentioned above and is attributable to the addition of Papa Murphy's corporate stores acquired in the second quarter of 2019.

The variations from promotional funds fluctuated in correlation to the related revenues.

**Earnings before interest, taxes, depreciation and amortization (EBITDA) <sup>(1)</sup>**

Six-month period ended May 31, 2020

(In millions \$)	Franchise	Corporate	Processing, distribution and retail	Promotional funds	Intercompany transactions	Total
Revenues	120.7	35.6	52.0	42.3	(2.0)	248.6
Expenses	68.9	35.9	44.6	42.3	(2.0)	189.7
Net profit in joint venture	0.3	—	—	—	—	0.3
EBITDA	52.1	(0.3)	7.4	—	—	59.2
EBITDA as a % of Revenue	43%	N/A	14%	N/A	N/A	24%

Six-month period ended May 31, 2019						
(In millions \$)	Franchise	Corporate	Processing, distribution and retail <sup>(2)</sup>	Promotional funds	Intercompany transactions	Total
Revenues	125.0	29.1	42.9	37.2	(1.3)	232.9
Expenses	67.4	31.1	36.0	37.2	(1.3)	170.4
EBITDA	57.6	(2.0)	6.9	—	—	62.5
EBITDA as a % of Revenue	46%	N/A	16%	N/A	N/A	27%

<sup>(1)</sup> See section "Definition of non-GAAP measures" found in the Supplemental Information section for definition.

<sup>(2)</sup> Prior year amounts have been restated to reflect a change in presentation for retail promotional deductions.

Several factors contributed to the variation, as listed below:

<i>(In millions \$)</i>	Canada	USA & International	Total
EBITDA <sup>(1)</sup> , first six months of 2019	38.6	23.9	62.5
Variance in recurring revenues and expenses	(14.4)	(12.8)	(27.2)
Increase in expected credit loss provision	(1.2)	(0.7)	(1.9)
Variance due to acquisitions	1.9	15.8	17.7
Variance due to impact of IFRS 16 on rent revenue & expense	3.8	4.3	8.1
Variance due to impact of IFRS 16 on impairment of lease receivables	(0.7)	—	(0.7)
Variance due to net impact of joint venture	0.3	—	0.3
Impact of variation in foreign exchange rates	—	0.6	0.6
Other non-material differences	(0.6)	0.4	(0.2)
EBITDA <sup>(1)</sup> , first six months of 2020	27.7	31.5	59.2

<sup>(1)</sup> See section "Definition of non-GAAP measures" found in the Supplemental Information section for definition.

Total EBITDA for the six-month period ended May 31, 2020 was \$59.2 million, a decrease of 5% compared to the same period last year. The impacts of COVID-19 are the primary reason for the decrease offset mainly by the 2019 acquisitions.

Excluding IFRS 16, Canada contributed to 47% of total EBITDA and a year-over-year decrease of \$14.0 million. This decrease of 36% was mostly due to the decrease in recurring revenues which resulting from the effects of the pandemic including the temporary closures of restaurants and the decrease in customer traffic in the locations remaining open. During the six-month period, acquisitions contributed to \$1.9 million in additional EBITDA.

The USA & International EBITDA grew by 14% mainly as a result of the acquisition of Papa Murphy's. Papa Murphy's contributed to \$15.8 million in EBITDA growth. This again was offset by the decrease in recurring revenues resulting from the negative impacts of the pandemic.

#### Net income

For the six-month period ended May 31, 2020, the net loss attributable to owners of \$80.1 million was recorded or \$3.23 per share (\$3.23 per diluted share) compared to net income of \$34.1 million or \$1.35 per share (\$1.35 per diluted share) last year. The decrease was primarily due to impairment indicators being identified during the period resulting from the adverse impact of COVID-19 which resulted in a non-cash impairment charge of \$120.3 million to its property plant and equipment, intangible assets and goodwill.

#### Calculation of Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) <sup>(1)</sup>

<i>(in thousands)</i>	Period ended May 31, 2020	Period ended May 31, 2019
Income (loss) before taxes	(94,159)	43,741
Depreciation – property, plant and equipment and right-of-use assets	8,625	1,536
Amortization – intangible assets	15,547	13,647
Interest on long-term debt	9,480	6,685
Net interest expense on leases	1,277	—
Impairment charge on right-of-use assets	1,610	—
Impairment charge on property, plant and equipment, intangible assets and goodwill	120,266	958
Unrealized and realized foreign exchange gain	(485)	(372)
Interest income	(369)	(239)
Gain on de-recognition/lease modification of lease liabilities	(2,525)	—
(Gain) loss on disposal of property, plant and equipment and intangible assets	372	(1,566)
Gain on revaluation of financial liabilities recorded at fair value through profit and loss	(389)	(1,869)
<b>EBITDA</b>	<b>59,250</b>	<b>62,521</b>

<sup>(1)</sup> See section "Definition of non-GAAP measures" found in the Supplemental Information section for definition.

## Other income and charges

Depreciation of property, plant and equipment and right-of-use assets increased by \$7.1 million as a result of the addition of right-of-use assets associated with IFRS 16. Amortization of intangible assets increased by \$1.9 million as a result of the 2019 acquisitions mostly driven by the Papa Murphy's acquisition.

Interest on long-term debt increased by \$2.8 million as a result of the increase in the revolving credit facility.

The acquisition of 70% of Turtle Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina, is being accounted for as a joint venture and MTY therefore presents its net profit only on its condensed interim consolidated statement of income. The joint venture is being accounted for under the equity method and the Company's percentage share of the profits or losses and movements in other comprehensive income of the company are being recorded as a separate line but is included in the EBITDA numbers presented above.

Under the new IFRS 16 standard, MTY must now record net interest expenses on leases, depreciation on right-of-use assets, impairment charge on right-of-use assets and gain or loss on the de-recognition/ modifications of lease liabilities. Since MTY applied a modified retrospective approach on transition, the 2019 results have not been restated. For further guidance on this, please refer to *changes in accounting policies* section of this MD&A.

The gain on de-recognition/lease modification of lease liabilities of \$2.5 million is due to the early termination of a few long-term leases by the landlords for which MTY had subsidized the sublease at a loss.

## RESULTS OF OPERATIONS FOR THE THREE-MONTH PERIOD ENDED MAY 31, 2020

### Revenue

During the second quarter of 2020, the Company's total revenue decreased to \$97.8 million, from \$125.6 million a year earlier. Revenues for the two segments of business are broken down as follows:

Segment	Subdivision	May 31, 2020 (\$ millions)	May 31, 2019 (\$ millions)	Variation
Canada	Franchise operation	14.4	35.4	(59%)
	Corporate stores	2.2	11.0	(80%)
	Food processing, distribution and retail <sup>(1)</sup>	24.2	19.3	25%
	Promotional funds	4.0	10.3	(61%)
	Intercompany transactions	(0.3)	(0.6)	N/A
	Total Canada	44.5	75.4	(41%)
USA & International	Franchise operation	30.4	32.7	(7%)
	Corporate stores	9.9	6.8	44%
	Food processing, distribution and retail	0.6	1.0	(40%)
	Promotional funds	12.9	9.8	32%
	Intercompany transactions	(0.5)	(0.1)	N/A
	Total USA/International	53.3	50.2	6%
<b>Total operating revenues</b>		<b>97.8</b>	<b>125.6</b>	<b>(22%)</b>

<sup>(1)</sup> Prior year amounts have been restated to reflect a change in presentation for retail promotional deductions.

#### Canada revenue analysis:

Revenues from franchise locations in Canada decreased by 59%. Several factors contributed to the variation, as listed below:

	\$ millions
Revenues, second quarter of 2019	35.4
Decrease in recurring revenue streams	(20.0)
Decrease in turnkey, sales of material to franchisees and rent revenues	(2.5)
Increase due to impact of IFRS 16 on rent revenue	0.9
Increase due to the acquisitions	1.1
Other non-material variations	(0.5)
<u>Revenues, second quarter of 2020</u>	<u>14.4</u>

The decrease to franchising revenues was mostly due to the negative impact of the pandemic. For the three-month period ended May 31, 2020 system sales when excluding acquisitions dropped 63% compared to prior year mostly as a result of COVID-19. As at May 31, 2020, the Company still had 966 locations temporarily closed in Canada.

Revenue from corporate-owned locations decreased by 80% to \$2.2 million during the quarter. The decrease is mostly due to the closures of most of the corporate locations during the months of March, April and May as a result of the pandemic.

Food processing, distribution and retail revenues increased by 25% mainly as the results of higher consumer spending in grocery stores while restaurants were closed during the pandemic. The launch of new products in the retail division as well as expansion into new provinces also helped generate new sales channels.

Promotional fund revenue decrease of 61% fluctuated in line with the decrease in system sales. This was offset by the new promotional revenues generated by the brands acquired in the last year.

#### USA/International revenue analysis:

Revenues from franchise locations in the US decreased by 7%. Several factors contributed to the variation, as listed below:

	\$ millions
Revenues, second quarter of 2019	32.7
Decrease in recurring revenue streams	(16.0)
Decrease in the sales of material and services to franchisees	(1.6)
Decrease in gift card breakage income	(0.8)
Increase due to acquisitions	13.4
Impact of variation in foreign exchange rates	1.3
Other non-material differences	1.4
<u>Revenues, second quarter of 2020</u>	<u>30.4</u>

Similar to Canada, the decrease to franchising revenues was mostly due to the negative impact of the pandemic. For the second quarter, system sales when excluding acquisitions dropped 39% compared to prior year mostly as a result of COVID-19. As at May 31, 2020, the Company still had 504 locations temporarily closed in the United States and Internationally.

The increase of \$3.1 million in corporate owned location revenues is mainly due to the impact of corporate stores acquired through the acquisition of Papa Murphy's. This accounts for \$4.4 million. This was partially offset by the reduction in corporate store sales for locations that were closed as a result of the pandemic.

The increase in promotional funds of \$3.1 million is due to the acquisition of Papa Murphy's. This was partially offset by the decrease caused by COVID-19.

## Cost of sales and other operating expenses

During the second quarter of 2020, operating expenses decreased by 13% to \$79.6 million, down from \$91.5 million a year ago. Operating expenses for the two business segments were incurred as follows:

Segment	Subdivision	May 31, 2020 (\$ millions)	May 31, 2019 (\$ millions)	Variation
Canada	Franchise operation	12.2	17.5	(30%)
	Corporate stores	2.7	11.5	(77%)
	Food processing, distribution and retail <sup>(1)</sup>	21.2	16.5	29%
	Promotional funds	4.0	10.3	(62%)
	Intercompany transactions	(0.4)	(0.7)	N/A
Total Canada		39.7	55.1	(28%)
USA & International	Franchise operation	17.3	19.9	(13%)
	Corporate stores	10.1	6.7	52%
	Promotional funds	12.9	9.8	31%
	Intercompany transactions	(0.4)	—	N/A
Total USA/International		39.9	36.4	10%
<b>Total cost of sales and other operating expenses</b>		<b>79.6</b>	<b>91.5</b>	<b>(13%)</b>

<sup>(1)</sup> Prior year amounts have been restated to reflect a change in presentation for retail promotional deductions.

### Canada cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in Canada decreased by \$5.3 million or 30%. Several factors contributed to the variation, as listed below:

	\$ millions
Cost of sales and other operating expenses, second quarter of 2019	17.5
Decrease in recurring non-controllable expenses	(1.1)
Decrease in recurring controllable expenses including wages, professional and consulting services and other office expenses	(5.4)
Increase in expected credit loss provisions	1.6
Increase due to acquisitions	0.5
Decrease due to impact of IFRS 16 on rent expense	(0.7)
Increase due to impact of IFRS 16 on impairment of lease receivables	0.1
Other non-material differences	(0.3)
Cost of sales and other operating expenses, second quarter of 2020	12.2

For the quarter, management was able to take certain actions to reduce expenditures within the organization resulting in the overall reduction of \$5.4 million in controllable expenses. Please refer to section "highlights of significant events" for more details on these measures taken.

Excluding the impact of IFRS 16, operating expenses would have decreased to \$12.8 million or 27%.

Corporate store operating expenses decreased by \$8.8 million for the quarter. Excluding the impact of IFRS 16, which had a positive impact of \$0.7 million, operating expenses would have decreased by \$8.1 million or 70%. This decrease is aligned with the decrease in revenues mentioned above and is attributable mainly to the temporary closures of these locations.

The variation of expenses from the food processing, distribution and retail as well as promotional funds expenses activities were tightly correlated to the related revenues.

#### USA/International cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in the USA/International decreased by \$2.6 million or 13%. Several factors contributed to the variation, as listed below:

	\$ millions
Cost of sales and other operating expenses, second quarter of 2019	19.9
Decrease in recurring non-controllable expenses	(1.8)
Decrease in recurring controllable expenses including wages, professional and consulting services and other office expenses	(4.7)
Increase in expected credit loss provisions	0.4
Increase due to acquisitions	3.7
Decrease due to impact of IFRS 16 on rent expense	(1.8)
Increase due to impact of IFRS 16 on impairment of lease receivables	(0.2)
Impact of variation in foreign exchange rates	0.5
Other non-material differences	1.3
<b>Cost of sales and other operating expenses, second quarter of 2020</b>	<b>17.3</b>

Excluding the impact of IFRS 16, operating expenses would have decreased by \$0.6 million. The acquisition of Papa Murphy's resulted in an increase of \$3.7 million. This was offset mainly by a decrease controllable expenses of \$4.7 million which was the result of management cost reduction initiatives put into place in response to COVID-19.

Corporate store operating expense was positively impacted by \$0.7 million due to IFRS 16. Removing the rent expense IFRS 16 adjustment, corporate store expenses would have been \$10.8 million, an increase of 63% compared to prior year. This increase is aligned with the increase in revenues mentioned above and is attributable to the addition of Papa Murphy's corporate stores acquired in the second quarter of 2019.

The variations from promotional funds fluctuated in correlation to the related revenues.

#### **Earnings before interest, taxes, depreciation and amortization (EBITDA) <sup>(1)</sup>**

Three-month period ended May 31, 2020				
	(In millions \$)	Canada	USA & International	Total
Revenues		44.5	53.3	97.8
Expenses		39.7	39.9	79.6
EBITDA		4.8	13.4	18.2

Three-month period ended May 31, 2019				
	(In millions \$)	Canada <sup>(2)</sup>	USA & International	Total
Revenues		75.4	50.2	125.6
Expenses		55.1	36.4	91.5
EBITDA		20.3	13.8	34.1
EBITDA as a % of Revenue		27%	27%	27%

Below is a summary of performance segmented by product/service:

Three-month period ended May 31, 2020						
(In millions \$)	Franchise	Corporate	Processing, distribution and retail	Promotional funds	Intercompany transactions	Total
Revenues	44.8	12.1	24.8	16.9	(0.8)	97.8
Expenses	29.5	12.8	21.2	16.9	(0.8)	79.6
EBITDA	15.3	(0.7)	3.6	—	—	18.2
EBITDA as a % of Revenue	34%	N/A	15%	N/A	N/A	19%

Three-month period ended May 31, 2019						
(In millions \$)	Franchise	Corporate	Processing, distribution and retail <sup>(2)</sup>	Promotional funds	Intercompany transactions	Total
Revenues	68.1	17.8	20.3	20.1	(0.7)	125.6
Expenses	37.4	18.2	16.5	20.1	(0.7)	91.5
EBITDA	30.7	(0.4)	3.8	—	—	34.1
EBITDA as a % of Revenue	45%	N/A	19%	N/A	N/A	27%

<sup>(1)</sup> See section "Definition of non-GAAP measures" found in the Supplemental Information section for definition.

<sup>(2)</sup> Prior year amounts have been restated to reflect a change in presentation for retail promotional deductions.

Several factors contributed to the variation, as listed below:

(In millions \$)	Canada	USA & International	Total
EBITDA <sup>(1)</sup> , second quarter of 2019	20.3	13.8	34.1
Variance in recurring revenues and expenses	(16.1)	(12.8)	(28.9)
Increase in expected credit loss provision	(1.7)	(0.4)	(2.1)
Variance due to acquisitions	0.6	8.8	9.4
Variance due to impact of IFRS 16 on rent revenue & expense	2.3	2.5	4.8
Variance due to impact of IFRS 16 on impairment of lease receivables	(0.1)	0.2	0.1
Impact of variation in foreign exchange rates	—	0.7	0.7
Other non-material differences	(0.5)	0.6	0.1
EBITDA <sup>(1)</sup> , second quarter of 2020	4.8	13.4	18.2

<sup>(1)</sup> See section "Definition of non-GAAP measures" found in the Supplemental Information section for definition.

Total EBITDA for the quarter period ended May 31, 2020 was \$18.2 million, a decrease of 47% compared to the same period last year. Excluding the impact of IFRS 16, EBITDA for the three-month period would have been \$2.6 million and \$10.7 million in Canada and the USA respectively. The total EBITDA excluding IFRS 16 of \$13.3 million would have been a decrease of 60% compared to prior year. The impact of COVID-19 is the primary reason for the decrease offset mainly by the 2019 acquisitions.

Excluding IFRS 16, Canada contributed 20% of total EBITDA and a decrease for the quarter of \$17.7 million. This decrease of 87% was mostly due to the decrease in recurring revenues resulting from the effects of the pandemic including the temporary closures of restaurants and the decrease in customer traffic in the locations remaining open.

Excluding IFRS 16, the USA & International EBITDA declined by 22% mainly as a result of the pandemic. This was partially offset by the acquisition of Papa Murphy's which contributed \$8.8 million in EBITDA during the quarter.

### Net income

For the three-month month period ended May 31, 2020, a net loss attributable to owners of \$99.1 million or \$4.01 per share (\$4.01 per diluted share) was recorded compared to a net income of \$19.3 million or \$0.76 per share (\$0.76 per diluted share) last year. The decrease was primarily due to impairment indicators being identified during the period due to the adverse impact of COVID-19 which resulted in a non-cash impairment charge of \$120.3 million to its property plant and equipment, intangible assets and goodwill.

## Calculation of Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) <sup>(1)</sup>

(in thousands)	Quarter ended May 31, 2020	Quarter ended May 31, 2019
Income (loss) before taxes	(118,299)	24,555
Depreciation – property, plant and equipment and right-of-use assets	4,784	797
Amortization – intangible assets	8,392	7,096
Interest on long-term debt	4,302	3,543
Net interest expense on leases	675	—
Impairment charge on right-of-use assets	1,383	—
Impairment charge on property, plant and equipment and right-of-use assets	120,266	958
Unrealized and realized foreign exchange gain	(585)	(364)
Interest income	(187)	(74)
Gain on de-recognition/lease modification of lease liabilities	(2,525)	—
(Gain) loss on disposal of property, plant and equipment and intangible assets	199	(1,493)
Gain on revaluation of financial liabilities recorded at fair value through profit and loss	(192)	(873)
<b>EBITDA</b>	<b>18,213</b>	<b>34,145</b>

<sup>(1)</sup> See section “Definition of non-GAAP measures” found in the Supplemental Information section for definition.

### Other income and charges

Depreciation of property, plant and equipment and right-of-use assets increased by \$4.0 million as a result of the addition of right-of-use assets associated with IRFS 16. Amortization of intangible assets increased by \$1.3 million as a result of the 2019 acquisitions mostly driven by the Papa Murphy’s acquisition.

Under the new IFRS 16 standard, MTY must now record net interest expenses on leases, depreciation on right-of-use assets, impairment charge on right-of-use assets and loss on the re-recognition of lease liabilities. Since MTY applied a modified retrospective approach on transition, the 2019 results have not been restated. For further guidance on this, please refer to *changes in accounting policies* section of this MD&A.

The gain on de-recognition/lease modification of lease liabilities of \$2.5 million is due to the termination of a few long-term leases by the landlords for which MTY had subsidized the sublease at a loss.

## CONTRACTUAL OBLIGATIONS

The obligations pertaining to the long-term debt and the minimum net rentals for the leases are as follows:

(in millions \$)	0 – 6 Months	6 – 12 Months	12 – 24 Months	24 – 36 Months	36 – 48 Months	48 – 60 Months	Thereafter
	\$	\$	\$	\$	\$	\$	\$
Trade payable and accrued liabilities	101.1	—	—	—	—	—	—

<b>Total contractual obligations</b>	<b>122.1</b>	<b>19.8</b>	<b>41.7</b>	<b>540.2</b>	<b>10.5</b>	<b>8.5</b>	<b>31.8</b>

<sup>(1)</sup> Amounts shown represent the total amount payable at maturity and are therefore undiscounted. For total commitments, please refer to the May 31, 2020 interim condensed consolidated financial statements. Long-term debt includes interest-bearing loans related to acquisitions, promissory notes, contingent consideration on acquisitions, minority put options, non-interest-bearing holdbacks on acquisitions, non-interest-bearing contract cancellation fees and interest rate swap.

<sup>(2)</sup> When future interest cash flows are variable, they are calculated using the interest rates prevailing at the end of the reporting period

## LIQUIDITY AND CAPITAL RESOURCES

As of May 31, 2020, the amount held in cash totaled \$49.9 million, a decrease of \$0.8 million since the end of the 2019 fiscal period.

During the first quarter, MTY paid \$4.6 million in dividends to its shareholders. The dividend payment was suspended for the second quarter. The Company also repurchased and cancelled 364,774 (2019 – nil) of its shares for \$18.9 million through its normal course issuer bid.

During the six-month period ended May 31, 2020, cash flows generated by operating activities were \$50.2 million, compared to \$47.8 million in 2019. Excluding the variation in non-cash working capital items, income taxes, interest paid and other operations generated \$60.3 million in cash flows, compared to \$63.4 million in 2019, which represents a decrease of 5% year-over-year. The decrease is mostly due to the decrease in EBITDA detailed above.

MTY expects its financial performance for the third and the fourth quarters to be below the realization of 2019 due to the lingering effect of COVID-19. The Company intends to maintain a certain portion of the cost control measures that were put in place during the second quarter in order to preserve capital resources and increase its financial agility. MTY continues to work closely with all its business partners to limit the financial and non-financial impacts of the pandemic. Further discussion on the expected impact of COVID-19 can be found in the Highlights of Significant Events section of this MD&A.

The revolving credit facility has an authorized amount of \$700.0 million (November 30, 2019 – \$700.0 million), of which \$507.0 million was drawn at May 31, 2020 (November 30, 2019 – \$518.9 million).

During the second quarter, MTY amended its existing credit facility in light of COVID-19 to change the financial covenants for a period of one year. The facility has the following financial covenants:

- The Debt-to-EBITDA ratio must be less than or equal to the following:
  - 4.25:1.00 for the financial quarter ending on May 31, 2020
  - 4.50:1.00 for the financial quarter ending August 31, 2020 and November 30, 2020
  - 4.25:1.00 for the period beginning on December 1, 2020 and ending on May 30, 2021
  - 3.50:1.00 as of May 31, 2021 and thereafter.
- The interest and rent coverage ratio must be at 2.00:1.00 at all times.

The credit agreement also contains various limitations on distributions and on the usage of the proceeds from the disposal of assets. The main limitations on distributions impose restrictions on the issuance of dividends and the repurchase of MTY's common shares through its normal course issuer bid process until such time as the debt-to-EBITDA falls below 3.50:1.00.

The revolving facility is repayable without penalty with the balance due on the date of maturity September 23, 2022.

At quarter end, the Company was in compliance with the covenants of the credit agreement.

## LOCATION INFORMATION

MTY's locations can be found in: i) food courts and shopping malls; ii) street front; and iii) non-traditional format within petroleum retailers, convenience stores, grocery stores, cinemas, amusement parks, in other venues or retailers shared sites, hospitals, universities and airports. The non-traditional locations are typically smaller in size, require lower investment and generate lower revenue than the shopping malls, food courts and street front locations.

**Number of locations:**

	Three months ended May 31		Six months ended May 31	
	2020	2019	2020	2019

The Company's network opened 101 locations (44 in Canada, 44 in the United States and 13 International) for the six-month period of 2020. For the second quarter, 48 locations were opened (17 in Canada, 27 in the United States and 4 International).

During the first six months of 2020, the Company's network closed 260 locations (103 in Canada, 133 in the United States and 24 International). Of the locations closed during the quarter, 53% were located on street front, 22% in malls and office towers and 25% in other non-traditional formats. For the quarter, 111 locations were closed (42 in Canada, 61 in the United States and 8 International).

As at May 31, 2020, the Company's network had a total of 1,470 locations temporarily closed as a result of COVID-19. Of these temporarily closed locations, 966 are in Canada, 372 in the United States and the remaining 132 Internationally. As at July 9, 2020, MTY has already reopened 897 of these temporarily closed locations and expect the remaining locations to open in the coming weeks.

The chart below provides the breakdown of MTY's locations and system sales by type:

Location type	% of location count		% of system sales	
	May 31		Three-month ended	
	2020	2019	2020	2019
Shopping mall & office tower food courts	<b>16%</b>	17%	<b>11%</b>	21%
Street front	<b>63%</b>	66%	<b>80%</b>	66%
Non-traditional format	<b>21%</b>	17%	<b>9%</b>	13%

The geographical breakdown of MTY's locations and system sales is as follows:

Geographical location	% of location count		% of system sales six-month ended	
	May 31		May 31	
	2020	2019	2020	2019
Canada	<b>39%</b>	37%	<b>36%</b>	51%
United States	<b>54%</b>	56%	<b>60%</b>	43%
International	<b>7%</b>	7%	<b>4%</b>	6%

In Canada, Quebec had the largest portion of total system sales with 19% followed by Ontario with 10%. In the United States, only the state of California exceeds 10% of the total system sales for the year. Washington and Oregon are the second and third largest contributor to the network's sales with 6% and 5% of total system sales respectively.

The geographical distribution of system sales is as follows:

The breakdown by the types of concepts for the system sales is as follows:

Concept Type	% of location count		% system sales	
	May 31		May 31	
	2020	2019	2020	2019
Quick Service Restaurant (QSR)	<b>83%</b>	86%	<b>72%</b>	61%
Fast Casual	<b>10%</b>	8%	<b>12%</b>	15%
Casual Dining	<b>7%</b>	6%	<b>16%</b>	24%

### System wide sales

During the three and six-month period ended May 31, 2020, MTY's network generated \$670.7 million and \$1,670.2 million respectively in sales. The breakdown of sales by quarter is as follows:

	(millions of \$)	Canada	USA	International	TOTAL
First quarter of 2020		425.2	530.5	43.8	<b>999.5</b>
First quarter of 2019		374.5	269.6	43.7	<b>687.8</b>
Variance		14%	97%	0%	<b>45%</b>
Second quarter 2020		173.2	477.0	20.5	<b>670.7</b>
Second quarter 2019		413.7	374.9	43.7	<b>832.3</b>
Variance		(58%)	27%	(53%)	<b>(19%)</b>
Year-to-date 2020		598.4	1,007.5	64.3	<b>1,670.2</b>
Year-to-date 2019		788.2	644.5	87.4	<b>1,520.1</b>
Variance		(24%)	46%	(26%)	<b>10%</b>

For the second quarter of 2020, systems sales decreased by 19% compared to prior year while the year-to-date sales were positive 10% from last year. The three-month period decrease is mainly due to the impacts of COVID-19. The split of the second quarter sales on a month to date basis is as follows;

	(millions of \$)	Canada	USA	International	TOTAL
March 2020		90.9	162.2	9.5	<b>262.6</b>
March 2019		144.5	127.6	15.3	<b>287.4</b>
Variance		(37%)	27%	(38%)	<b>(9%)</b>
April 2020		29.3	153.2	4.7	<b>187.2</b>
April 2019		131.1	111.4	14.8	<b>257.3</b>
Variance		(78%)	38%	(68%)	<b>(27%)</b>
May 2020		53.0	161.6	6.3	<b>220.9</b>
May 2019		138.2	135.8	13.6	<b>287.6</b>
Variance		(62%)	19%	(54%)	<b>(23%)</b>

Excluding the sales generated from acquisitions, the second quarter sales by month is as follows:

	(millions of \$)	Canada	USA	International	TOTAL
March 2020		82.4	85.5	8.7	<b>176.6</b>
March 2019		144.5	127.6	15.3	<b>287.4</b>
Variance		(43%)	(33%)	(43%)	<b>(39%)</b>
April 2020		26.2	54.7	4.0	<b>84.9</b>
April 2019		131.1	111.4	14.8	<b>257.3</b>
Variance		(80%)	(51%)	(73%)	<b>(67%)</b>
May 2020		45.5	88.6	5.6	<b>139.7</b>
May 2019		138.0	119.2	13.2	<b>270.4</b>
Variance		(67%)	(26%)	(58%)	<b>(48%)</b>

The overall movement in sales is distributed as follows:

(millions of \$)	Three-months sales ended May 31				Six-months sales ended May 31			
	Canada	USA	Inter-national	TOTAL	Canada	USA	Inter-national	TOTAL
Reported sales – second quarter of 2019	413.7	374.9	43.7	<b>832.3</b>	788.2	644.5	87.4	<b>1,520.1</b>
Net increase in sales generated by concepts acquired during the last 18 months	11.1	258.4	—	<b>269.5</b>	58.9	519.3	—	<b>578.2</b>
Net decrease resulting from negative impact of the pandemic and the temporary and permanent restaurant closures	(251.6)	(173.4)	(25.2)	<b>(450.2)</b>	(248.7)	(170.6)	(24.7)	<b>(444.0)</b>
Cumulative impact of foreign exchange variation	—	17.1	2.0	<b>19.1</b>	—	14.3	1.6	<b>15.9</b>
Reported sales – second quarter of 2020	173.2	477.0	20.5	<b>670.7</b>	598.4	1,007.5	64.3	<b>1,670.2</b>

Despite the severe impact of COVID-19 on the sales of our network, system sales for the first six months of 2020 have increased by 10%, fueled by the strong performance realized in the first quarter of 2020 and the impact of acquisitions. During the second quarter, a total of 2,757 locations have temporarily closed because of COVID-19, of which 1,470 were still closed as at May 31, 2020. Of the closed locations, 966 were in Canada, 372 in the United States and 132 were internationally located.

The acquisitions realized partially offset the second quarter decline. Papa Murphy's represents 96% of the total sales generated by the new acquisitions for the three-month period ended May 31, 2020. A weaker Canadian dollar relative to the US dollar also increased sales and resulted in a favorable variation of \$19.1 million in reported sales for the quarter.

Papa Murphy's and Cold Stone Creamery are the only concepts that currently represents more than 10% of system sales, generating approximately 32% and 15% respectively of the total sales of MTY's network during the first two quarters. Year-to-date, Taco Time, Thai Express and Baja Fresh Mexican Grill are the third, fourth and fifth largest concepts in terms of systems sales, generating less than 10% each of the network's sales.

System wide sales include sales for corporate and franchise locations and excludes sales realized by the distribution centers, by the food processing plants and by the retail division. System sales are converted from the currency in which they are generated into Canadian dollars for the presentation purposes; they are therefore subject to variations in foreign exchange rates.

### **Same Store Sales**

Due to the impacts of COVID-19 and the number of locations that have closed temporarily, providing same store sales information could be misleading as what would be presented would not be a fair representation of the Company's royalty earning potential and would also not be a fair indication of the health of the network. Management directs investors to system sales as a better indication.

Management continues to expect system sales and same store sales to be impacted for the third quarter. Although the Company had great momentum prior to COVID-19, current world events will continue to have a drastic impact on both system and same store sales in the quarters to come. With markets slowly reopening across Canada and the United States, the Company does expect however that third quarter results will improve over second quarter results.

## **CAPITAL STOCK INFORMATION**

### **Stock options**

As at May 31, 2020 there were 400,000 options outstanding and 44,444 that are exercisable.

### **Share Trading**

MTY's stock is traded on the Toronto Stock Exchange under the ticker symbol "MTY". From December 1, 2019 to May 31, 2020, MTY's share price fluctuated between \$16.58 and \$61.88. On May 29, 2020, MTY's shares closed at \$24.79.

### **Capital stock**

The Company's outstanding share capital is comprised of common shares. An unlimited number of common shares are authorized.

As at July 9, 2020, the Company's issued and outstanding capital stock consisted of 24,706,461 shares (25,071,235 as at November 30, 2019) and 400,000 issued and outstanding stock options (400,000 as at November 30, 2019). During the six-month period ended May 31, 2020, MTY purchased 364,774 shares for cancellation through its normal course issuer bid program.

### **Normal Course issuer Bid Program**

On June 27, 2019, the Company announced the renewal of the normal course issuer bid (NCIB) to purchase up to 1,258,488 of its common shares. The NCIB began on July 3, 2019 and ended on July 2, 2020. The NCIB was again renewed on June 29, 2020 for a period beginning on July 3, 2020 and ending on July 2, 2021 or on such earlier date when the Company completes its purchases or elects to terminate the NCIB. These purchases will be made on the open market plus brokerage fees through the facilities of the TSX and/or alternative trading systems at the prevailing market price at the time of the transaction, in accordance with the TSX's applicable policies. All common shares purchased pursuant to the NCIB will be cancelled.

During the three and six-months ended May 31, 2020, the Company repurchased and cancelled a total of 183,730 and 364,774 (2019 – nil) common shares respectively under the current NCIB, at a weighted average price of \$50.11 and

\$51.72 per common share, for a total consideration of \$9.2 million and \$18.9 million respectively (2019 – nil). For the three and six-month period ended May 31, 2020, an excess of \$6.9 million and \$14.3 million respectively (2019 – nil) of the shares repurchase value over their carrying amount was charged to retained earnings as share repurchase premiums.

## SUBSEQUENT EVENTS

### Renewal of NCIB

On June 29, 2020, the Company announced the renewal of its NCIB which allows MTY to purchase for cancellation up to 1,235,323 common shares during the period of July 3, 2020 and ending July 2, 2021. This represents 5% of the 24,706,461 outstanding shares as at June 25, 2020.

## SEASONALITY

Results of operations for any interim period are not necessarily indicative of the results of operations for the full year. The Company expects that seasonality will continue to be a factor in the quarterly variation of its results. For example, the Frozen treat category, which is a significant category in the US market, varies significantly during the winter season as a result of weather conditions. This risk is offset by other brands which have better performance during winter seasons such as Papa Murphy's which typically does better during winter months. The Company expects seasonality and weather conditions to be a factor in the quarterly variation of its results. Sales have been historically above average during May to August due to its frozen treat category. The Company expects that this seasonality will be somewhat offset by the sale of the take-and-bake pizza's at Papa Murphy's which usually sells better when the temperature is cooler. Sales for shopping mall locations are also higher than average in December during the holiday shopping period. For 2020, the normal seasonal trends might be affected by the shifts in consumer behavior caused by the pandemic or government regulations.

## OFF-BALANCE SHEET ARRANGEMENTS

MTY has no off-balance sheet arrangements.

## CONTINGENT LIABILITIES

The Company is involved in legal claims associated with its current business activities. The timing of the outflows, if any, is out of the control of the Company and is as a result undetermined at the moment. Contingent liabilities are disclosed as provisions on the interim consolidated statement of financial position.

Included in provisions are the following amounts:

	(In thousands \$)	May 31, 2020	November 30, 2019
		\$	\$
Litigations, disputes and other contingencies		9,544	11,474
Closed stores		317	1,947
		<b>9,861</b>	<b>13,421</b>

The provision for litigation, disputes and other contingencies represents management's best estimate of the outcome of litigations and disputes that are ongoing at the date of the statement of financial position. This provision is made of multiple items; the timing of the settlement of this provision is unknown given its nature, as the Company does not control the litigation timelines. The majority of provisions were the result of pre-acquisition provisions acquired as part of a business acquisition.

The payables related to closed stores mainly represent amounts that are expected to be disbursed to exit leases of underperforming or closed stores. The negotiations with the various stakeholders are typically short in duration and are expected to be settled within a few months following the recognition of the provision.

The provisions also varied in part due to foreign exchange fluctuations related to the US subsidiaries.

## LEASE AGREEMENT GUARANTEES

The Company has guaranteed lease on certain franchise stores in the event the franchisees are unable to meet their remaining lease commitments. The maximum amount the Company may be required to pay under these agreements was \$15.3 million, as of May 31, 2020 (November 30, 2019 - \$15.1 million). In addition, the Company could be required make payments for percentage rents, realty taxes and common area costs. As of May 31, 2020, the Company has accrued \$1.8 million (November 30, 2019 - nil) with respect to these guarantees.

## RELATED PARTY TRANSACTIONS

Balances and transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation. Details of transactions between the Company and other related parties are disclosed below.

### *Compensation of key management personnel*

The remuneration of key management personnel and directors during the periods was as follows:

	Three months ended May 31		Six months ended May 31	
	2020	2019	2020	2019
(In thousands \$)	\$	\$	\$	\$
Short-term benefits	573	673	1,310	1,463
Share based payment	240	152	508	323
Board member fees	18	18	37	36
Total remuneration of key management personnel	831	843	1,855	1,822

Key management personnel is composed of the Company's CEO, COO's, CFO. The remuneration of directors and key executives is determined by the Board of Directors having regard to the performance of individuals and market trends.

Given its widely held share base, the Company does not have an ultimate controlling party; its most important shareholder is its Chair of the Board of Directors, who controls 19.77% of the outstanding shares.

The Company also pays employment benefits to individuals related to members of the key management personnel described above. Their total remuneration was as follows:

	Three months ended May 31		Six months ended May 31	
	2020	2019	2020	2019
(In thousands \$)	\$	\$	\$	\$
Short-term benefits	125	119	256	231
Share based payment	2	5	8	10
Consulting services	—	20	—	38
Total remuneration of individuals related to key management personnel	127	144	264	279

The Company has entered into a consulting agreement with one of its joint venture associates to perform corporate business development and management consulting services and paid \$38 to this associate for the three-month period ended May 31, 2020 (2019 - nil) and consulting fees of \$75 for the six-month period ended May 31, 2020 (2019 - nil).

## CHANGES IN ACCOUNTING POLICIES

### Policies applicable beginning December 1, 2019

#### Impact of the application of IFRS 16 – Leases

On December 1, 2019, the Company adopted IFRS 16 using the modified retrospective approach. The Company has not restated the comparatives for the 2019 financial year as permitted under the specific transitional provisions in the standard. The impact from the new leasing standard is therefore recognized in the opening balance sheet on December 1, 2019.

IFRS 16 introduces new or amended requirements with respect to lease accounting. The standard provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. It supersedes IAS 17, Leases and its associated interpretive guidance. It introduces significant changes to lessee accounting by removing the distinction between operating and finance leases and requiring the recognition of a right-of-use asset and corresponding lease liability at the commencement of all leases (subject to limited exceptions for short-term leases and leases of low-value assets). Lease-related expenses previously recorded in operating expenses, primarily as occupancy costs will be recorded as depreciation on the right-of-use assets and a finance charge from unwinding the discount on the lease liabilities. When the Company is the lessor, lease-related revenues previously recorded in rental revenue will be recorded as finance income. IFRS 16 will also change the presentation of cash flows relating to leases in the Company's condensed interim consolidated statements of cash flows, but it does not cause a difference in the amount of cash transferred between the parties of a lease. Although the standard did not change the accounting for most lessors significantly, it does change the manner in which the intermediate lessor determines the classification of sublease arrangements between operating and finance leases. Under IFRS 16, this assessment is determined relative to whether the sublease transfers significant risks and rewards of the right-of-use asset.

In applying IFRS 16 for the first time, the Company has elected to use the following practical expedients permitted by the standard:

- the Company has not reassessed, under IFRS 16, contracts that were identified as leases under the previous accounting standards (IAS 17 and IFRIC 4);
- the use of the provision for onerous leases as an alternative to performing an impairment review;
- the right to exclude initial direct costs from the measurement of the right-of-use asset at the date of initial application;
- the accounting for operating leases with a remaining lease term of less than 12 months as at December 1, 2019 as short-term leases and leases for which the underlying asset is of low value;
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The impact of the adoption of IFRS 16 on the Company's financial statements is described below.

#### Impact on lessee accounting

IFRS 16 changes how the Company accounts for leases previously classified as operating leases under IAS 17, which were off-balance-sheet.

Applying IFRS 16, for all leases (except as noted below), the Company;

- recognized right-of-use assets and lease liabilities in the condensed interim consolidated statements of financial position, initially measured at the present value of future lease payments;
- recognized depreciation of right-of-use assets and interest on lease liabilities in the condensed interim consolidated statements of income; and
- separated the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the condensed interim consolidated statement of cash flows.

Under IFRS 16, right-of-use assets are tested for impairment in accordance with IAS 36. This replaces the previous requirement to recognize a provision for onerous lease contracts.

For short-term leases (lease term of 12 months or less) and leases of low-value assets, the Company has opted to recognize a lease expense on a straight-line basis as permitted by IFRS 16. This expense is presented within operating expenses, primarily as occupancy costs in the condensed interim consolidated statements of income.

On adoption of IFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as operating leases under the principles of IAS 17. These liabilities were measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate as of December 1, 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on December 1, 2019 was 2.749%.

The following table reconciles the operating lease commitments as at November 30, 2019 to the opening balance of lease liabilities as at December 1, 2019:

(in thousands \$)	\$
<b>Operating lease commitments disclosed as at November 30, 2019</b>	<b>648,445</b>
Discounted using the Company's incremental borrowing rate at December 1, 2019	(52,507)
Short-term leases and low-value leases	(16,228)
Adjustments as a result of a different treatment of extension and termination options	34,478
Other	(3,109)
<b>Lease liabilities recognized as at December 1, 2019</b>	<b>611,079</b>

The associated right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments and impairment relating to that lease recognized in the condensed interim consolidated statements of financial position as at December 1, 2019.

#### Impact on lessor accounting

As a lessor, leases are still classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. When the Company enters into a sublease arrangement as an intermediate lessor, the Company accounts for the head lease and the sublease as two separate contracts. The Company is required to classify the sublease as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For finance subleases, the Company derecognizes the right-of-use asset relating to the head lease that is transferred to the sublessee and recognizes a finance lease receivable in the sublease. Any difference between the right-of-use asset and finance lease receivable is recognized as a gain or loss in the consolidated statements of income. As the intermediate lessor, the Company retains the lease liability on the head lease in its consolidated statement of financial position. During the term of the sublease, the Company recognizes both finance income on the sublease and interest expenses on the head lease.

As a result of this change, the Company has reclassified most of its sublease arrangements as finance leases. As required by IFRS 9, an allowance for expected credit loss has been recognized on the finance lease receivables.

#### Financial impact of initial application of IFRS 16

The following table summarizes the adjustments to opening balances resulting from the initial adoption of IFRS 16:

(in thousands \$)	As previously reported under IAS 17 November 30, 2019	IFRS 16 transition adjustments	December 1, 2019
	\$	\$	\$
<b>Assets</b>			
Current assets			
Finance lease receivables	—	98,256	<b>98,256</b>
Prepaid expenses and deposits	<b>9,284</b>	(1,972)	<b>7,312</b>

(in thousands \$)	As previously reported under IAS 17 November 30, 2019	IFRS 16 transition adjustments	December 1, 2019
	\$	\$	\$
<b>Assets</b>			
Finance lease receivables	—	428,165	<b>428,165</b>
Right-of-use assets	—	68,838	<b>68,838</b>

Deferred income taxes	<b>158,430</b>	(3,737)	<b>154,693</b>
Reserves			
Retained earnings	<b>353,300</b>	(10,692)	<b>342,608</b>

### IFRIC 23 - Uncertainty over income tax treatments

In June 2017, the IASB released IFRIC 23 - Uncertainty over Income Tax Treatments, which addresses how to determine the taxable profit (loss), tax basis, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 1 - Income Taxes. It specifically considers whether tax treatments should be considered independently or collectively and assumptions for taxation authorities' examinations with regard to taxable profit (loss), tax bases, unused tax losses, unused tax credits or tax rates.

IFRIC 23 was adopted effective December 1, 2019 and resulted in no significant adjustment.

## JOINT ARRANGEMENTS

Joint arrangements are arrangements in which the Company exercises joint control as established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangement's returns. When the Company has the rights to the net assets of the arrangement, the arrangement is classified as a joint venture and is accounted for using the equity method. When the Company has rights to the assets and obligations for the liabilities relating to an arrangement, the arrangement is classified as a joint operation and the Company accounts for each of its assets, liabilities and transactions, including its share of those held or incurred jointly, in relation to the joint operation.

Under the equity method of accounting, interests in joint ventures are initially recognized at cost and adjusted thereafter to recognize the Company's share of the profits or losses and movements in other comprehensive income (OCI) of the investee. When the Company's share of losses in a joint venture equals or exceeds its interests in the joint ventures, the Company does not recognize further losses unless it will incur obligations or make payments on behalf of the joint ventures.

Unrealized gains resulting from transactions with joint ventures are eliminated, to the extent of the Company's share in the joint venture. For sales of products or services from the Company to its joint ventures, the elimination of unrealized profits is considered in the carrying value of the investment in equity accounted investees in the condensed interim consolidated statement of financial position and in the share in profit or loss of equity accounted investees in the condensed interim consolidated statement of income.

## COVID-19 ACCOUNTING IMPLICATIONS ON LEASES

In response to the COVID-19 pandemic, the IASB has issued amendments to IFRS 16 to allow entities to not account for rent concessions as lease modifications if they are a direct consequence of COVID-19 and meet certain conditions:

- the revised consideration is substantially the same or less than the original consideration;
- the reduction in lease payments relates to payments due on or before June 30, 2021; and
- no other substantive changes have been made to the terms of the lease.

The Company has applied this practicable expedient to all eligible rent concessions.

## FUTURE ACCOUNTING CHANGES

A number of new standards, interpretations and amendments to existing standards were issued by the International Accounting Standard Board ("IASB") that are not yet effective for the period ended May 31, 2020 and have not been applied in preparing the consolidated financial statements.

The following standards may have a material impact on the consolidated financial statements of the Company:

Standard	Issue date	Effective date for the Company	Impact
IFRS 3 Business Combinations	October 2018	December 1, 2020	In assessment

### IFRS 3-Business Combinations

In October 2018, the IASB issued amendments to the definition of a business in IFRS 3 Business Combinations. The amendments are intended to assist entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition. The amendments to IFRS 3 are effective for annual reporting periods beginning on or after 1 January 2020 and apply prospectively. Earlier application is permitted. The Company will adopt December 1, 2020.

## RISKS AND UNCERTAINTIES

Despite the fact that the Company has various numbers of concepts, diversified in type of locations and geographies across Canada and the United States, the performance of the Company is also influenced by changes in demographic trends, traffic patterns, occupancy level of malls and office towers and the type, number, and location of competing restaurants. In addition, factors such as innovation, increased food costs, labour and benefits costs, occupancy costs and the availability of experienced management and hourly employees may adversely affect the Company. Changing consumer preferences and discretionary spending patterns could oblige the Company to modify or discontinue concepts and/or menus and could result in a reduction of revenue and operating income. Even if the Company was able to compete successfully with other restaurant companies with similar concepts, it may be forced to make changes in one or more of its concepts in order to respond to changes in consumer tastes or dining patterns. If the Company changes a concept, it may lose additional customers who do not prefer the new concept and menu, and it may not be able to attract a sufficient new customer base to produce the revenue needed to make the concept profitable. Similarly, the Company may have different or additional competitors for its intended customers as a result of such a concept change and may not be able to successfully compete against such competitors. The Company's success also depends on numerous factors affecting discretionary consumer spending, including economic conditions, disposable consumer income and consumer confidence. Adverse changes in these factors could reduce customer traffic or impose practical limits on pricing, either of which could reduce revenue and operating income.

The growth of MTY is dependent on maintaining the current franchise system which is subject to many factors including but not limited to the renewal of existing leases at sustainable rates, MTY's ability to continue to expand by obtaining acceptable store sites and lease terms, obtaining qualified franchisees, increasing comparable store sales and completing acquisitions. The time, energy and resources involved in the integration of the acquired businesses into the MTY system and culture could also have an impact on MTY's results.

MTY could be materially and adversely affected by the outbreak of a widespread health epidemic or pandemic, including arising from various strains of avian flu or swine flu, such as H1N1, or COVID-19, particularly if located in regions from which the Company derives a significant amount of revenue or profit. The occurrence of such an outbreak or other adverse public health developments could materially disrupt the business and operations. Such events could also significantly impact the industry and cause a temporary closure of restaurants, which could severely disrupt MTY's or the

Company's franchisees' operations and have a material adverse effect on the business, financial condition and results of operations.

At this time, the Company is unable to accurately predict the future impact that the pandemic will have on the results of operations, due to uncertainties including the severity of the disease, the duration of the outbreak, and further actions that may be taken by governmental authorities to contain the virus or to treat its impact. However, while it is premature to accurately predict the ultimate impact of these developments, the Company expects the results for the third quarter ending August 31, 2020 to be impacted with potential continuing adverse impacts beyond August 31, 2020.

In addition, the operations could be disrupted if any of MTY's employees or employees of MTY's business partners were suspected of having the avian flu or swine flu, or other illnesses such as hepatitis A, norovirus or coronavirus, since this could require the Company or business partners to quarantine some or all of such employees or disinfect the restaurant facilities. Outbreaks of avian flu occur from time to time around the world, and such outbreaks have resulted in confirmed human cases. It is possible that outbreaks could reach pandemic levels. Public concern over avian flu generally may cause fear about the consumption of chicken, eggs and other products derived from poultry, which could cause customers to consume less poultry and related products. Because poultry is a menu offering for many of the Company's Concepts, this would likely result in lower revenues and profits to both MTY and franchisee partners. Avian flu outbreaks could also adversely affect the price and availability of poultry, which could negatively impact profit margins and revenues.

Furthermore, other viruses may be transmitted through human contact, and the risk of contracting viruses could cause employees or guests to avoid gathering in public places, which could adversely affect restaurant guest traffic or the ability to adequately staff restaurants. MTY could also be adversely affected if government authorities impose mandatory closures, seek voluntary closures, impose restrictions on operations of restaurants, or restrict the import or export of products, or if suppliers issue mass recalls of products. Even if such measures are not implemented and a virus or other disease does not spread significantly, the perceived risk of infection or health risk may adversely affect the business and operating results.

Please refer to the November 30, 2019 Annual Information Form for further discussion on all risks and uncertainties.

## **ECONOMIC ENVIRONMENT RISK**

The business of the Company is dependent upon numerous aspects of a healthy general economic environment, from strong consumer spending to provide sales revenue, to available credit to finance the franchisees and the Company. In case of turmoil in economic, credit and capital markets, the Company's performance and market price may be adversely affected. The Company's current planning assumptions forecast that the restaurant industry will be impacted by the current economic uncertainty in the certain regions in which it operates. Exposure to health epidemics and pandemics, such as the current COVID-19, are a risk to the Company and its franchise partners. Within a normal economic cycle, management is of the opinion that these risks will not have a major impact on the Company due to the following reasons: 1) the Company generates strong cash flows and has a healthy balance sheet; 2) the Company has several concepts offering affordable dining out options for consumers in an economic slowdown. During extreme economic turmoil, management believes that the Company has the ability to overcome these risks until the economy re-establishes itself.

## **FINANCIAL INSTRUMENTS**

In the normal course of business, the Company uses various financial instruments which by their nature involve risk, including market risk and the credit risk of non-performance by counterparties. These financial instruments are subject to normal credit standards, financial controls, risk management as well as monitoring procedures.

The Company has determined that the fair value of its financial assets and financial liabilities with short-term maturities approximates their carrying value. These financial instruments include cash, accounts receivables, accounts payable and accrued liabilities and deposits. The table below shows the fair value and the carrying amount of other financial instruments as at May 31, 2020 and November 30, 2019. Since estimates are used to determine fair value, they must not be interpreted as being realizable in the event of a settlement of the instruments.

The classification, carrying value and fair value of financial instruments are as follows:

(in thousands \$)	May 31, 2020		November 30, 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
	\$	\$	\$	\$
Financial assets				
Loans receivable	5,193	5,193	7,145	7,145
Finance lease receivable	494,644	494,644	—	—
Financial liabilities				
Long-term debt <sup>(1)</sup>	517,898	518,663	531,196	542,147

<sup>(1)</sup> Excludes promissory notes, contingent considerations on acquisition, interest rate swap and obligations to repurchase non-controlling interests.

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is established based on market information available at the date of the interim consolidated statement of financial position. In the absence of an active market for a financial instrument, the Company uses the valuation methods described below to determine the fair value of the instrument. To make the assumptions required by certain valuation models, the Company relies mainly on external, readily observable market inputs. Assumptions or inputs that are not based on observable market data are used in the absence of external data. These assumptions or factors represent management's best estimates of the assumptions or factors that would be used by market participants for these instruments. The credit risk of the counterparty and the Company's own credit risk have been taken into account in estimating the fair value of all financial assets and financial liabilities, including derivatives.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

*Loans receivable and Finance lease receivable* – The carrying amount for these financial instruments approximates fair value due to the short-term maturity of these instruments and/or the use of market interest rates.

*Long-term debt* – The fair value of long-term debt is determined using the present value of future cash flows under current financing agreements based on the Company's current estimated borrowing rate for a similar debt.

#### **Promissory notes issued as part of its consideration for the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar**

The Company has three outstanding promissory notes that were recorded as part of the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar.

A fair value remeasurement gain of \$0.3 million was recorded for these promissory notes for the three-month period ended May 31, 2020 (2019 – gain of \$1.1 million) and of \$0.2 million (2019 – gain of \$2.3 million) for the six-month period ended May 31, 2020.

#### **Contingent consideration on acquisitions and joint venture interest**

The Company issued as part of its consideration for the acquisition of Yuzu Sushi, Allô! Mon Coco and investment in Tortoise Group contingent considerations to the vendors. These contingent considerations are subject to earn-out provisions, which are based on future earnings and are repayable in August 2021 for Yuzu Sushi; October 2020 and January 2022 for Allô! Mon Coco and December 2022 for Tortoise Group. These contingent considerations have been recorded at fair value and are remeasured on a recurring basis.

A fair value remeasurement gain of \$0.3 million was recorded for the contingent considerations for the three-month period ended May 31, 2020 (2019 – nil) and of \$0.9 million (2019 – nil) for the six-month period ended May 31, 2020.

#### **Obligations to repurchase non-controlling interests**

The Company has entered into an agreement to purchase the shares of a minority interest shareholder of 9974644 Canada Inc. at the option of the holder at any time after December 9, 2017. The consideration is based on a multiplier of EBITDA, as prescribed by the terms of the shareholder agreement. The Company records a liability at fair value which is remeasured at each reporting period.

A fair value remeasurement gain of less than \$0.1 million for the three-month period ended May 31, 2020 (2019 – nil) and a loss of \$0.1 million for the six-month period ended May 31, 2020 (2019 – nil) was recorded for this non-controlling interest obligation.

The Company, in conjunction with the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar, entered into an agreement to acquire the non-controlling interest in 10220396 Canada Inc., in June 2022. The consideration to be paid for this acquisition will be based on future earnings. The Company recorded a liability at fair value which is remeasured at each reporting period.

A fair value remeasurement gain of \$1.8 million for the three-month period ended May 31, 2020 (2019 – loss of \$0.2 million) and a gain of \$1.5 million for the six-month period ended May 31, 2020 (2019 – loss of \$0.5 million) was recorded for this non-controlling interest obligation.

#### **Obligation to repurchase partner in a joint venture**

The Company, in conjunction with the acquisition of its 70% interest in a joint venture that acquired Tortoise Group, entered into an agreement to acquire the remaining 30% interest by December 2025. The consideration to be paid for this acquisition will be based on future earnings. The Company recorded a liability at fair value which is remeasured at each reporting period.

A fair value re-measurement loss of \$0.4 million for the three-month period ended May 31, 2020 (2019 - nil) and a loss of \$0.4 million for the six-month period ended May 31, 2020 (2019 – nil) was recorded.

#### **Interest rate swap**

The Company holds an interest rate swap that is contracted to a fixed rate on a notional amount of \$100.0 million and that matures in July 21, 2021. The fair value of this interest rate swap amounted to \$2.1 (2019 – nil) and the Company recorded a fair value remeasurement loss of \$2.0 for the three-month period ended May 31, 2020 (2019 – nil) and a loss of \$1.8 for the six-month period ended May 31, 2020 (2019 – nil) was recorded. The Company has classified this as level 2 in the fair value hierarchy.

#### **Cross currency interest rate swap**

On May 27, 2020, The Company entered a floating to floating 1-month cross currency interest rate swap. A fair value of nil was recorded as at May 31, 2020.

<b>Receive-Notional</b>	<b>Receive-rate</b>	<b>Pay-Notional</b>	<b>Pay-rate</b>
US\$ 143.9	1.63%	CA\$ 200.0	1.725%

#### **Fair value hierarchy**

	<b>Level 3</b>	
	<b>May 31, 2020</b>	<b>November 30, 2019</b>
(in thousands \$)		
Financial liabilities	\$	\$
Promissory notes for Houston Avenue Bar & Grill	—	329
Promissory notes related to buyback obligation of Houston Avenue Bar & Grill and Industria Pizzeria + Bar	2,828	2,738
Contingent considerations on acquisitions and joint venture interest	8,944	3,874
Non-controlling interest buyback options	1,037	2,513
Obligation to repurchase partner in a joint venture	3,233	—
<b>Financial liabilities</b>	<b>16,042</b>	<b>9,454</b>

## FINANCIAL RISK EXPOSURE

The Company, through its financial assets and liabilities, is exposed to various risks. The following analysis provides a measurement of risks as at May 31, 2020.

### *Credit risk*

Credit risk arises from cash and deposits with banks and financial institutions. The Corporation reduces this risk by dealing with credit-worthy financial institutions.

The Company's credit risk is also primarily attributable to its trade receivables, loans receivables and finance lease receivables. The amounts disclosed in the interim consolidated statement of financial position represent the maximum exposure to credit risk for each respective financial asset as at the relevant dates. The Company believes that no particular concentration of credit risks exists due to the geographic diversity of its customers across Canada and the USA and the procedures in place for managing these risks.

In response to COVID-19, the Company took additional expected credit loss provisions on its trade receivables, loans receivables and finance lease receivables. Although the credit risk associated with the pandemic is still impossible to reasonably forecast given its uncertainty, a review of each of its brands was conducted and the expected credit losses were adjusted to reflect managements best estimate. For further information regarding this, please refer to MTY's condensed interim consolidated financial statements.

### *Interest rate risk*

Interest rate risk is the Company's exposure to increases and decreases in financial instrument values caused by the fluctuation in interest rates. The Company is exposed to cash flow risk due to the interest rate fluctuation in its floating-rate interest-bearing financial obligations.

Furthermore, upon refinancing of a borrowing, depending on the availability of funds in the market and lender perception of the Company's risk, the margin that is added to the reference rate, such as LIBOR or prime rates, could vary and thereby directly influence the interest rate payable by the Company.

Long-term debt stems mainly from acquisitions of long-term assets and business combinations. The Company is exposed to interest rate risk with its revolving credit facility which is used to finance the Company's acquisitions. The facility bears interest at a variable rate and as such the interest burden could change materially. Of the credit facility, \$507.0 million (November 30, 2019 – \$518.9 million) was used as at May 31, 2020. A 100 basis points increase in the bank's prime rate would result in additional interest of \$5.1 million per annum (November 30, 2019 – \$5.2 million) on the outstanding credit facility.

### *Liquidity risk*

Liquidity risk refers to the possibility of the Company not being able to meet its financial obligations when they become due. The Company has contractual and fiscal obligations as well as financial liabilities and is therefore exposed to liquidity risk. Such risk can result, for example, from a market disruption, such as the current pandemic, or a lack of liquidity. The Company actively maintains its credit facility to ensure it has sufficient available funds to meet current and foreseeable financial requirements at a reasonable cost.

As at May 31, 2020, the Company had an authorized revolving credit facility for which the available amount may not exceed \$700.0 million (November 30, 2019 – \$700.0 million) to ensure that sufficient funds are available to meet its financial requirements.

The following are the contractual maturities of financial liabilities as at May 31, 2020:

<i>(in millions \$)</i>	Carrying amount	Contractual cash flows	0 – 6 Months	6 – 12 Months	12 – 24 Months	Thereafter
	\$	\$	\$	\$	\$	\$
Trade payable and accrued liabilities	101.1	101.1	101.1	—	—	—
Long-term debt <sup>(1)</sup>	536.0	536.8	3.3	2.1	9.3	522.1
Interest on long-term debt	41.4	41.4	8.9	8.9	17.7	5.9
Lease liabilities	585.6	632.5	67.2	67.3	117.5	380.5
<b>Total contractual obligations</b>	<b>1,264.1</b>	<b>1,311.8</b>	<b>180.5</b>	<b>78.3</b>	<b>144.5</b>	<b>908.5</b>

<sup>(1)</sup> When future interest cash flows are variable, they are calculated using the interest rates prevailing at the end of the reporting period.

## NEAR-TERM OUTLOOK

The Company is closely monitoring the global situation surrounding COVID-19 and taking proactive steps to ensure the well-being and safety of its employees, franchisees and customers, and the continuity of its operations and businesses. Given the dynamic nature of the situation, it is not possible to ascertain what impact there may be on the Company's long-term financial performance. MTY is taking the necessary steps to mitigate the potential consequences that this situation may have on its operations, franchisees, partners and service to MTY's customers. Please refer to section Highlights of Significant Events for further details on actions taken in response to COVID-19.

In the very short term, management's primary focus is to re-open the restaurants that have been temporarily closed as a result of the pandemic and to rebuild customer confidence by implementing proper safety measures and adjust the way customers are served. Even after the pandemic is over, customer consumption patterns may shift temporarily or permanently from those traditionally witnessed and MTY will have to adapt to new customer behaviours. Although the Company does not foresee sales comparability for at least the next two to three quarters as a result of COVID-19, management believes the Company will be able to regain customer confidence in the brands and restore the positive momentum it saw in the first quarter of 2020. The Company's focus, after the pandemic will still be on innovation, quality of food and customer service in each of the outlets and maximizing the value offered to customers.

The restaurant industry will remain more than ever challenging in the future as customer consumption patterns change and management believes that the focus on the food offering, innovation, consistency and store design will give MTY's restaurants a stronger position to face challenges. Given this difficult competitive context in which more restaurants compete for a finite amount of consumer dollars, each concept needs to preserve and improve the relevance of its offerings to consumers.

## CONTROLS & PROCEDURES

### Disclosure controls and procedures

Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in reports filed with the securities regulatory authorities are recorded, processed, summarized and reported in a timely fashion. The disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in such reports is then accumulated and communicated to the Company's management to ensure timely decisions regarding required disclosure. Management regularly reviews disclosure controls and procedures; however, they cannot provide an absolute level of assurance because of the inherent limitations in control systems to prevent or detect all misstatements due to error or fraud.

Subject to the preceding paragraph, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the design of the disclosure controls and procedures ("DC&P") as at May 31, 2020 provide reasonable assurance that significant information relevant to the Company, including that of its subsidiaries, is reported to them during the preparation of disclosure documents.

### Internal controls over financial reporting

The Chief Executive Officer and the Chief Financial Officer are responsible for establishing and maintaining internal controls over financial reporting. The Company's internal controls over financial reporting are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

The Chief Executive Officer and the Chief Financial Officer, together with Management have concluded the financial statements included in this report present fairly in all material respects its financial position, results of operations, capital position and cash flows for the periods presented in accordance with IFRS.

The Chief Executive Officer and the Chief Financial Officer, together with Management, have concluded after having conducted an evaluation and to the best of their knowledge that, as at May 31, 2020, no change in the Company's internal controls over financial reporting occurred that could have materially affected or is reasonably likely to materially affect the Company's internal controls over financial reporting.

### Limitations of Controls and Procedures

There are inherent limitations in the effectiveness of any control system, including the potential for human error and the possible circumvention or overriding of controls and procedures. Additionally, judgments in decision-making can be faulty and breakdowns can occur because of a simple error or mistake. An effective control system can provide only reasonable,

not absolute, assurance that the control objectives of the system are adequately met. Accordingly, the management of the Company, including its Chief Executive Officer and Chief Financial Officer, does not expect that the control system can prevent or detect all error or fraud. Finally, projections of any evaluation or assessment of effectiveness of a control system to future periods are subject to the risks that, over time, controls may become inadequate because of changes in an entity's operating environment or deterioration in the degree of compliance with policies or procedures.

#### Limitation on scope of design

The Company's management, with the participation of its President and Chief Executive Officer and Chief Financial Officer, has limited the scope of the design of the Company's disclosure controls and procedures and internal controls over financial reporting to exclude controls, policies and procedures and internal controls over financial reporting of the recently acquired operations:

Percentage of MTY Food Group Inc.	Company's assets	Current assets	Non-current assets	Current Liabilities	Long-term liabilities	Revenues	Net loss
Allô! Mon Coco	3%	3%	3%	2%	3%	1%	0%
Yuzu Sushi	1%	1%	1%	1%	0%	1%	(1%)

The Company's management, with the participation of its President and Chief Executive Officer and Chief Financial Officer, has limited the scope of the design of the Company's disclosure controls and procedures and internal controls over financial reporting to exclude controls, policies and procedures and internal controls over financial reporting of certain special purpose entities ("SPEs") on which the Company has the ability to exercise *de facto* control and which have as a result been consolidated in the Company's consolidated financial statements. For the period ended May 31, 2020, these SPEs represent 0% of the Company's current assets, 0% of its non-current assets, 0% of the Company's current liabilities, 0% of long-term liabilities, 0% of the Company's revenues and 0% of the Company's net loss.

#### Definition of non-GAAP measures

The following non-GAAP measures can be found in the analysis of the MD&A:

<b>EBITDA</b>	Represents revenues less operating expenses (excludes income tax, interest, depreciation and amortization and all other income (charges)) plus share of net profit of a joint venture accounted for using the equity method. See reconciliation of EBITDA to Income before taxes on page 11
<b>Normalized EBITDA</b>	Normalized EBITDA is EBITDA before transaction costs related to acquisitions.
<b>Adjusted organic EBITDA</b>	Defined as EBITDA before non-recurring costs, foreign exchange and acquisitions that have occurred within the last 24 months and is not comparable year-over-year
<b>Free Cashflow</b>	Represents the sum total cashflows from operating activities less capital expenditures
<b>Same-store sales</b>	Comparative sales generated by stores that have been open for at least thirteen months or that have been acquired more than thirteen months ago
<b>System sales</b>	System sales are sales of all existing restaurants including those that have closed or have opened during the period, as well as the sales of new concepts acquired from the closing date of the transaction and forward.
<b>Debt-to-EBITDA</b>	Defined as current and long-term debt divided by EBITDA
